When Your Supplier Is in Crisis, Every Hour Costs Millions.

We stop the bleeding. Mexico-based quality consulting firm specialized in supplier recovery for automotive and aerospace — serving since 2020.

Structured Intervention Approach

1 Gap Assessment

Audit performed based on criteria agreed with the customer — IATF 16949, VDA 6.3, CQI, GM 1927, GM 30, 9+2, Q1. Current situation fully documented.

2 Risk Identification

Highest risks identified. Containment actions immediately implemented. Action plan elaborated and agreed with the organization. Resources allocated.

3 On-Site Support Activation

Consultant assigned to site. Working teams formed with supplier personnel. Responsible owners assigned. Training for Top Management and key contributors.

4 Execution & Monitoring

Weekly reports of actions implemented. Roadblocks, issues, and risks communicated proactively. Effectiveness monitored through agreed key metrics.

5 Validation & Stability

IATF 16949 certificate recovered? Supplier performance level acceptable? New Business On Hold removed? External inspection and sorting activities removed? If yes — optional proactive QMS continuous improvement plan.

Three Pillars of Quality Excellence

REACTIVE
Crisis Intervention

When your supplier is not meeting the expected performance, we deploy on-site immediately to stop quality escapes and begin recovery.

- On-site process containment
- Core Tools as operational instruments
- Top management engagement
- Prevention & culture change focus
- Customer complaints effective resolution

PROACTIVE
Auditing & Consulting

Prevent crises before they happen. Our team of experts perform audits, gap assessments and build Quality Management Systems that actually work.

- 1st & 2nd party audits
- IATF 16949, VDA 6.3, CQIs (special processes)
- QMS design and implementation
- OEMs CSR assessments (Q1, GM 1927 30, 9+2, etc.)
- Lean Manufacturing

DEVELOPMENT
Specialized Training

Build internal capability with training programs designed by practitioners who've lived the standards — not just read them.

- IATF 16949
- AIAG Core Tools
- CQIs Special Processes Assessments
- CQIs Quality Tools
- Problem Solving (8D, A3, QRQC, Six Sigma)
- OEMs CSR
- ISO 9001, ISO 14001, ISO 45001

Standards We Master & Deliver

IATF 16949 | AS 9100D | ISO 14001 | TISAX | VDA 6.5 | Control Plan | CQIs
ISO 9001 | ISO 45001 | APQP | PPAP | VDA 6.3 | FMEA | IATF CSR
